

AMAR THAKARE

Python Software Developer

thakreamar2002@gmail.com | +91 8390877703 | [LinkedIn](#) | [GitHub](#)

SUMMARY

MCA graduate with a strong foundation in data structures, algorithms, and object-oriented programming, backed by hands-on experience building backend systems in Python/Flask, working with relational databases (MySQL, SQLite), and deploying applications on AWS. Comfortable across the full software development lifecycle -- from requirement analysis and coding to unit testing, version control, and cloud deployment. Built and delivered multiple end-to-end projects independently, including a production-style application deployed to AWS. Seeking an entry-level Python Developer / Software Engineer role to contribute to scalable, well-engineered software products.

TECHNICAL SKILLS

- Core CS Fundamentals: OOP Concepts, DBMS, Operating Systems
- Languages: Python, SQL, C++, JavaScript
- Backend & APIs: Flask, REST API Design, OpenCV, NumPy
- Databases: MySQL, SQLite
- Web Technologies: HTML, CSS, JavaScript
- Cloud Platforms: AWS (EC2, S3, IAM, SQS, Cloud Architecture & Deployment)
- Practices & Tools: SDLC, Git/GitHub, Linux, VS Code, Power BI

EXPERIENCE

Cloud Computing Intern — TechnoHack Solutions Pvt. Ltd.

Feb 2026 – Jun 2026

- Developed backend services in Python and Flask for cloud-hosted environments, applying REST API design principles in a production-style workflow.
- Worked hands-on with AWS EC2, S3, SQS, and IAM to provision, deploy, and secure cloud infrastructure.
- Applied cloud architecture and virtualization concepts to support scalable application deployment.
- Supported infrastructure monitoring, logging, and performance tracking for deployed services.

PROJECTS

Cloud-Based Smart Attendance System

2026

Python, Flask, OpenCV, SQLite, AWS EC2

- Developed a Python/Flask REST API backend with SQLite database integration for automated attendance management.
- Implemented face recognition using Python and OpenCV to automate student attendance tracking.
- Deployed the application on AWS EC2 for remote access and scalable cloud-based operation.
- Automated attendance recording, reducing manual attendance processing and improving data consistency.

Blog Writing Website

2025

PHP, MySQL, HTML, CSS

- Built a full-stack blogging application with secure authentication and role-based access control.
- Implemented CRUD operations for creating, editing, and managing content, backed by a MySQL data layer.
- Designed a responsive UI for consistent usability across desktop and mobile devices.

Water Billing System

2023

Visual Basic, MySQL

- Developed an automated billing system to streamline water usage tracking and payment processing.
- Implemented automated billing calculations and data validation to reduce manual processing errors.

EDUCATION

Master of Computer Applications (MCA)

2024 – 2026

RTM Nagpur University

Bachelor of Science (B.Sc.), Computer Science

2020 – 2023

Sant Gadge Baba Amravati University

CERTIFICATIONS

- Microsoft Azure Essentials — Oct 2024
- Google AI Essentials — Nov 2024
- Getting Started with Data Analytics on AWS — Feb 2025
